Risk Communication in the Workplace Short Course

Pythagorisk Pty Ltd have developed a two-day Risk Communication in the Workplace Short Course. The course will be delivered to the public, and can also be delivered at client sites. Customisation for a particular site is also possible.

Topic 1 Introduction and Overview – From risk to risk communication, risk perspectives, risk communication for companies, barriers to implementation.

Topic 2 Risk Communication Foundations – Foundations, quality of relationships, information design, shaping the dialogue.

Topic 3 Risk Communication Progress – Context, goals & objectives, risk arenas, stakeholder perspectives, participation stances, the strategy, doing it, evaluation and continuous improvement.

Topic 4 Advanced Topics – Crisis communication, historical development, relationship to risk management, other workplace communication and approaches.

Course Outcomes:

After this course, attendees should understand the risk communication process and the roles and benefits it can play in a project, be aware of the close relationship between risk assessment, management, monitoring and communication, and be capable of contributing to the development of a risk communication strategy to support a project.

Who should attend:

This course has been designed to suit managers, supervisors and technical officers.
