- WHS(Mines)R 2022 awareness training
- Statutory positions applicable legislative exam prep program.
- Mining Practice exam prep for Statutory Certificates.

MINING PRACTICE EXAM PREPARATION PROGRAM

Pythagorisk Pty Ltd (PRPL) are pleased to offer support for Underground Supervisors, Restricted Quarry Managers and Restricted Quarry Managers (Non-Explosives) candidates preparing to undertake the appropriate Mining Practice Examination. TNLC / Pythagorisk have been assisting with DEMIRS exam preparation training for over 20 years and have concluded that the only way to service clients / candidates is using online training, this is because of the current examination arrangements (closed-book online examination) and the flexible timing of examinations (difficult to get critical mass). The beneficial outcome of this training is that all enrollees will be well prepared for the DEMIRS/LGIRS Mining Practice Exam required for their Statutory Certificate. The facilitator is well aware that the online closed book examination is the most difficult type of examination for many candidates, and for this reason are happy to provide this service.

MINING PRACTICE EXAMINATION REQUIRED FOR UGS, RQM & RQM(NE) STATUTORY CERTIFICATES
